Product Notification: UKCA Mark on LMI Technologies' Products

This is a notice that going forward products manufactured by LMI Technologies will have the UK Conformity Assessed (UKCA) mark on the product label.

The UKCA mark is an official designation of conformance with the applicable requirements for products sold within Great Britain (England, Scotland, and Wales). **This mark will be mandatory as of January, 2023.**

To achieve early compliance with this legislated requirement, LMI Technologies has elected to start shipping products with the mark in the coming weeks. The mark will be applied to products shipped globally, not only the UK.

Refer to the sample below for placement of the UKCA mark on the product label.

Affected Models

All LMI products that have the CE mark on the label will also include UKCA.

The above information is effective immediately. If you have any questions, please write to contact@lmi3d.com or contact your LMI Account Manager.
